Fund Description

The PowerShares India Portfolio is based on the Indus India Index. The Fund will normally invest at least 90% of its total assets in securities that comprise the Index and American depositary receipts based on the securities in the Index. This Index is designed to replicate the Indian equity markets as a whole, through a diverse group of 50 Indian stocks selected from a universe of the largest companies listed on two major Indian exchanges: 200 from the Bombay Stock Exchange and 200 from the National Stock Exchange.

There are risks involved with investing in ETFs, including possible loss of money. Shares are not actively managed and are subject to risks similar to those of stocks, including those regarding short selling and margin maintenance requirements. Ordinary brokerage commissions apply. An investment in non-U.S. securities involves special risk beyond an investment in domestic equities.

| After Tax Sold | 54.06 | - | - | - | -4.93 |
| Market Price | 79.75 | - | - | - | -7.16 |

Performance data quoted represents past performance. As stated in the Fund's prospectus, the expense ratio of 0.78% is expressed as a unitary fee to cover expenses incurred in connection with managing the portfolio. Past performance is not a guarantee of future results; current performance may be higher or lower than performance quoted. Investment returns and principal value will fluctuate and Shares, when redeemed, may be worth more or less than their original cost. See invescopowershares.com to find the most recent month-end performance numbers. After Tax Held represents total return after taxes on distributions and assumes Shares have not been sold. After Tax Sold represents total return after taxes on distributions and the sale of Fund Shares. Market returns are based on the midpoint of the bid/ask spread at 4 p.m. ET and do not represent the returns an investor would receive if shares were traded at other times.

| S&P 500 | -5.62 | 19.89 | -0.38 |

Fund Inception: March 5, 2008

¹ Index returns do not represent Fund returns. An investor cannot invest directly in an index.

² Returns for the benchmark indexes are based on the closest month end to the Fund's inception date.

Neither the underlying Index nor the benchmark indexes charge management fees or brokerage expenses, and no such fees or expenses were deducted from the performance shown; nor do any of the indexes lend securities, and no revenues from securities lending were added to the performance shown. In addition, the results actual investors might have achieved would have differed from those shown because of differences in the timing, amounts of their investments, and fees and expenses associated with an investment in the Fund.

The MSCI India Index and the Sensex Index are unmanaged indexes considered representative of Indian stocks. The S&P 500® Index is an unmanaged index considered representative of the U.S. stock market.

Shares are not FDIC insured, may lose value and have no bank guarantee.

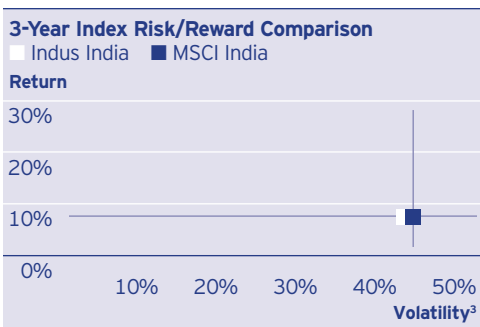

Shares are not individually redeemable and owners of the Shares may acquire those Shares from the Fund and tender those Shares for redemption to the Fund in Creation Unit aggregations only, typically consisting of 50,000 Shares.

Leading the Intelligent ETF Revolution[®]

Underlying Index performance does not represent Fund performance.

³ The Intraday NAV is a symbol representing estimated fair value based on the most recent intraday price of underlying assets.

Volatility is the annualized standard deviation of monthly index returns.

Beta is a measure of relative risk and the slope of regression.

Sharpe Ratio is a risk-adjusted measure calculated using standard deviation and excess return to determine reward per unit of risk. A higher Sharpe Ratio indicates better risk-adjusted performance.

Correlation indicates the degree to which two investments have historically moved in the same direction and magnitude.

Alpha is a measure of performance on a risk-adjusted basis.

Stock Price-to-Earnings Ratio is the share price divided by earnings per share. It is measured on a 12-month trailing basis.

Stock Price-to-Book-Value Ratio is the ratio of a stock's market price to a company's net asset value.

Weighted Harmonic Average is a method of calculating an average value that lessens the impact of large outliers and increases the impact of small ones.

Weighted Average Return on Equity is net income divided by net worth.

Weighted Market Capitalization is the sum of each underlying securities' market value.

⁴ Please see the website for complete holdings information. Holdings are subject to change.

Stocks of Indian companies carry additional risks, including, but not limited to: The value of the Fund's assets may be adversely affected by political, economic, social and other factors, changes in Indian law or regulations and the status of India's relations with other countries. In addition, the economy of India may differ favorably or unfavorably from the U.S. economy in such respects as the rate of growth of gross domestic product, the rate of inflation, capital reinvestment, resource self-sufficiency and balance of payments position. Agriculture occupies a more prominent position in the Indian economy than in the U.S., and the Indian economy therefore is more susceptible to adverse changes in weather. The Indian government has exercised and continues to exercise significant influence over many aspects of the economy, and the number of public sector enterprises in India is substantial. Accordingly, Indian government actions in the future could have a significant effect on the Indian economy, which could affect private sector companies and the Fund, market conditions, and prices and yields of securities in the Fund's portfolio. The Fund currently operates through a wholly owned subsidiary in the Republic of Mauritius and will benefit from favorable tax treatment by the Indian government pursuant to a taxation treaty between India and Mauritius. Please see the prospectus for more complete information.

The Mauritius Financial Services Commission does not vouch for the financial soundness of the Subsidiary or the Fund or for the correctness of any statements made or opinions expressed with regard

to it in any offering document or other similar document of the Subsidiary or the Fund.
